

## Transcript of A New Epoch In History

There is a change of an Age; there is a change of an Era. You are entering into a new Consciousness; you are entering into a new time of awareness.

You are entering into that which was prophesied by the Ancients and which is coming to fulfillment. But it is not the end of the world, or the end of existence. It is rather the manifestation of a new time of existence. For as it was when the consciousness was changed in the East to a Consciousness of Wisdom, brought about by He who would become known as the Buddha, so it was when the Christ—or He that would become known as the Christ—ushered in the Era of Love, the Era of Grace, that time which has lasted.

Likewise it is now the beginning of a new Epoch in history; it is the beginning of a new time in history. It is the beginning of the Age of Love and Wisdom, that time when there is a marriage and a union of the philosophy taught by the Buddha and the philosophy taught by the Christ. Notice, we did not say, the *religion* taught by the Buddha, for Buddha did not teach a religion. He taught a philosophy, which man then made into a religion. And the Christ, He taught Love, which then man made into a religion. Love and Grace was then hijacked into a religion that was unintended.

So now these two unintended religions, which are philosophies of how you should really live, it is the Age in which it is necessary for these to be united into one—united so that by living in Love and Wisdom, you can fully develop your soul essence, raise the consciousness of yourself and the world around you.

There was a time when man dwelled in Light, and from that Light he blew off as a great spark of light and entered into the darkness of the world to light the world. So man now must raise himself to the Light Consciousness from whence he came. And this can only be done fully by manifesting the self in both Wisdom and Love. This is the essence of Divine Grace. This is the essence of the Age in which you are living.

But the result is great turmoil and turbulence, for there are those in various religious Faiths that are trying desperately to hold on to that which they had; that which is of the past. Yet is it not written in your Scriptures that, if a Faith stops bearing fruit, the limb shall be removed from the tree and a new limb grafted in. So it has been throughout the Ages and so it continues to be. For the true spirit is always the manifest trunk of the tree. And there is continually that which is new and relevant grafted in, so man may prosper and grow.

Thus you are welcoming in a new time, a new Era in history. As you can see if you look back through history, you can see the Astrological signs where Moses led the children of Israel out of Egypt. And if you look you can see the Astrological signs where the Buddha was even then founding the philosophy that would set people free from suffering. And if you look to history, and see the Astrological signs, you can realize the signs of the birth of the Christ, as did the Magi, the astrologers who came to worship the king, who was like Buddha, a king of world of spirit, *not* a king of the world of the flesh.

So too now you are in a transitory time, and this is a time when you will find yourself setting up a new Epoch, a new world, a time where there will be the Initiation of a new Light. And that time has come. The question is, are the people ready or, like the people in Israel when they left, will they cling to Egypt and build themselves a calf. When they left in the Age of Aries (meant: Taurus), entering into the age of Aries, leaving the Age of Taurus, will they build for themselves a golden bull and move backward?

Or, when they entered the Age of Grace, will they instead look back to the Age of Aries—the age of sacrifice, of the Ram— and then place a man upon a cross as a sacrifice, a man who preached Love and Grace... Divine Grace?

So, now, will people try to hold and cling to the prophets and the religions of the past, or will they move with the times and with the future? Think about it. Think about what you have seen for art, cinema, drama, always moving slightly ahead. Think of Ob-Wan Kenobi; think of Spock, and the Vulcan priest. Oh, a little bit from the Ages past.)

We tell you this. Your Sacred Astrology, both in the East and the West, tell you that now is the time of a change. And if you are unwilling to move with that change, then you must be part of the dying past.

We leave you with Blessing and with Peace.

Peace be with you!
